By George Lait

(I. N. S. Staff Correspondent) German Field Marshal Erwin Rommel's Africa Corps have driven more than 50 miles inside Egypt to a point southeast of Sidi Barani on the Mediterranean coast, the British Middle East high command disclosed today.

It was revealed at the same time that Lieut. Gen. Neil M. Ritchie had withdrawn his British Eighth Army from fortified positions on the Libyan-Egyptian frontier running south from Solum to Sidi Omar.

The Axis penetration into Egypt and the advance toward Sidi Barani was effected during the night.

The eastward thrust by Rommel was preceded by heavy fighting throughout yesterday between Axis mechanized units and British mobile forces.

Heavy losses were said to have been inflicted on the Germans and Italians LARGE NUMBER THERE Hospital. despite their forward gains.

Other modifications in the new books include a reduction in the number of information pages at the beginning of the directory, but retaining all essential information, and the elimination flowers, of the civic section. This is the section which started with the first yellow page and contained general facts about places of interest.

Charles F. Beatty, manager for the Bell Company, said the new books will contain 397 pages of alphabetical listings and 77 pages of classified listings. About 30,000 copies of the new direc tory will be distributed.

When the new books have been delivered, Mr. Beatty suggests that they be consulted before any call is placed because they contain many new telephone numbers and many that have been changed.
